How many in each frame? How many altogether?

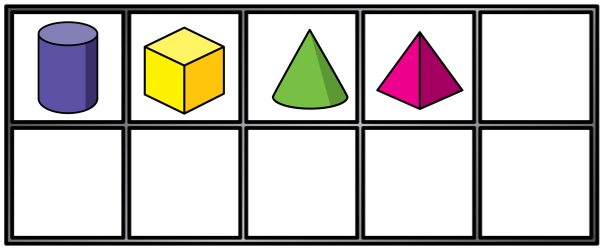

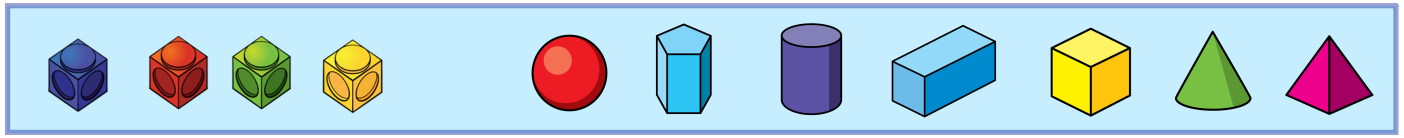

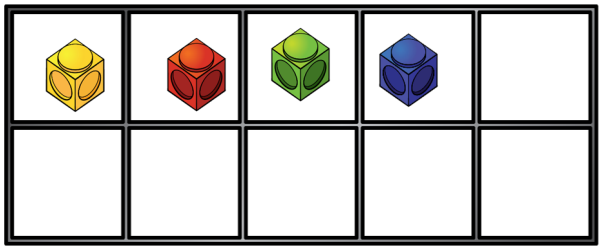

How many in each frame? How many altogether?

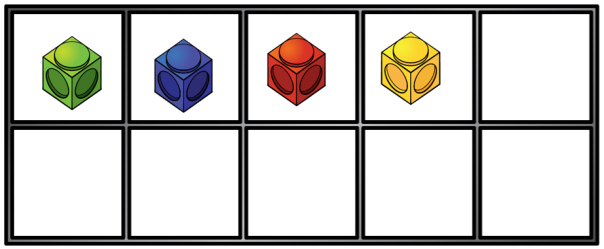

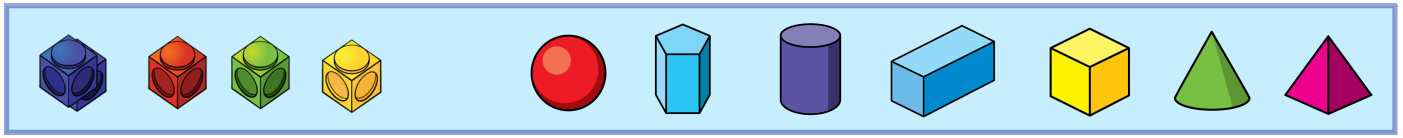

How many in each frame? How many altogether?

On the next slide there are some numicon and numbers.

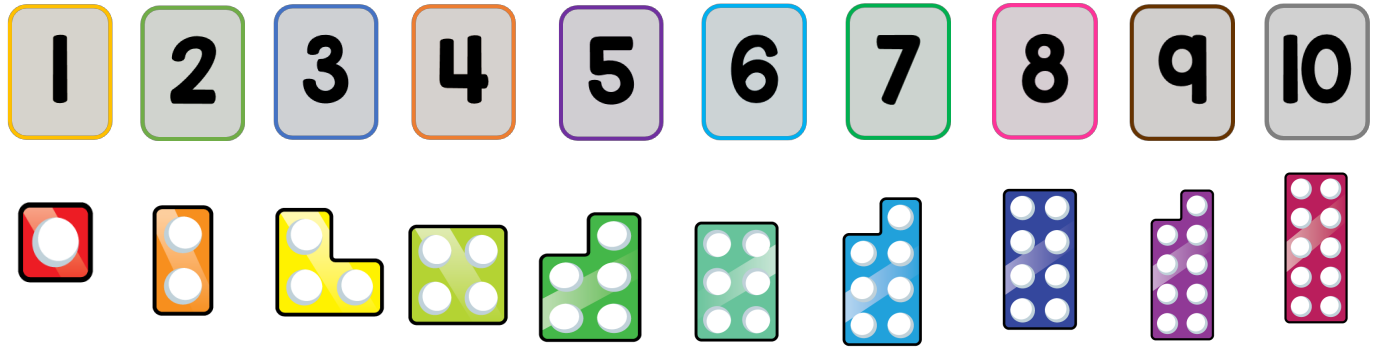

If you can, print the page and cut out the numbers and numicon.

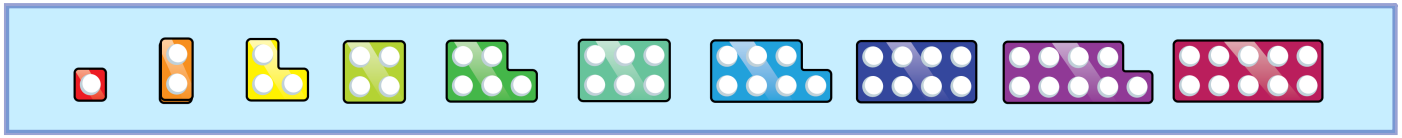

Play pairs game where you turn all the cards face down;

take it in turns with a grown up to turn a card

and try to match a number and numicon plate. When you match

2 cards keep them a side. The player with the most cards, wins.
