Look at a map with grid references.

How can we use the grid references to locate the different geographical features?

Bradford Population change over time.
What do you notice?

I do

Explain how Saltaire has developed as a settlement.

During Pre-Industrial times, Bradford including Saltaire was mainly farmland owned by landowners. At the start of the Industrial period Bradford grew significantly. Sir Titus Salt built his model village on the outskirts of Bradford. There was a marked increase in population during this time due to people coming to the town for work.

We do

Write your paragraph with your partner. Explain how Saltaire has developed as a settlement.
