Friday 13th November
LO: To select information about humans use of rivers.

Sep 17-16:06

Starter

Multiple choice quiz

Oct 26-16:56

I do

The Volga

This river runs from its source in the hills in North-West Russia to the Caspian Sea. It is the longest river in Europe and is 2294 miles (3692 km) long. In places, the Volga is so wide that you can't see the other side! Its name in Russian means 'moisture' or 'wetness'.

Huge sturgeon fish can be found living in the water. However, the river is quite polluted due to factories dumping waste there which has a bad effect on the people who make caviar. (Caviar is a very expensive food made from fish eggs.) The river is also used for taking goods all over Russia but is frozen for around three months of the year.

One of the biggest battles of the Second World War, the Battle of Stalingrad, happened on the banks of the river at Volgograd, the city named after the river which used to be called 'Stalingrad'.

We do

Read the fact files and select information about how humans use rivers.

Record your information on your whiteboard.

Oct 12-20:50

You do

Use your information to write sentences about river use.
You need to include the different reasons people use rivers.
What positive impact this might have.
What negative impact this may have.

Use conjunctions in your writing.
