# The Story Machine

Do you know how the story machine works? If not, then read all about this machine and you will know how to make an imaginative and creative story. How does the machine work?

- To start the machine running, you have to wind up the clockwork handle. This provides enough energy to turn the large wheel, which causes the paper to be in the correct position. As the wheel spins, this also enables the machine's data-base to warm up so it can produce some ingenious ideas. Once the ideas are ready, the machine can start producing some remarkable stories rapidly.
- When the wheel begins to slow down, you must turn the handle again. As a result, the machinery will speed up the wheel. This means that you can start using one of the best features of the 'Story Machine'. Pressing the keys will enable you to start writing a fabulous story, that will really impress your teacher.
- Furthermore, if you press the green button then a type bar will instantly move your letters to start producing ambitious vocabulary. Therefore, you will have excellent examples of conjunctions, adverbs and expanded noun phrases to amaze your teacher!

- On top of the machine, an unusual, sweeping spinning brush appears which will move the paper along so that you can see your marvellous creation. Finally, the 'Story Machine' will publish your work and all your friends and family will be astounded. What a fantastic machine it is!
- Now you know how to create a story by using this machine but remember to always check your sentences for punctuation and spellings.
