LO: To write a biography

I do

Paragraph 2 (Achievements)	
• What were his main achievements? • When did he achieve these? • How did he make these achievements?	• He had a chain of shops where he sold his exquisite jewellery. • He had a talent for making different pieces of jewellery and watches. • He was keen on chess which led him to invent the first chess clock. • In 1911 Fattorini was chosen by the Football Association to make their challenge cup. • He made badges and medals for sports clubs. • Through hard work and dedication he was able to achieve his dreams.

As his business flourished, Antonio acquired a chain of shops, in cities across West Yorkshire, where he sold his exquisite jewellery. His talent for making different pieces of unique jewellery and watches, made him a popular jeweller. Consequently, in 1911, Fattorini was chosen be the Football Association to make the Challenge Cup. Interestingly, Bradford City won the cup in the same year! This lead to him producing many badges as well as medals for various sports clubs. Because of his keen interest in the game of chess, he went on to invent the first chess clock, which was a great success. Dedicated and hardworking, he was able to acheive his dreams.
